What will you choose to do?

- Write your own prehistoric adventure story. Will you set it in the Stone Age, Bronze Age or Iron Age? Make sure your story reflects the time in which it is set.
- Find out more about rock art – human-made markings placed on natural stone. Draw your own or a friend's pet in the style of a prehistoric cave painting.
- We know about prehistoric life from artefacts that have been found, such as food, coins, tools and jewellery. What might historians of the future find out about you from your everyday belongings? Write a newspaper report about a find 1000 years in the future.
- Use your local library to research the Stone Age, Bronze Age and Iron Age history of your local area. Are there any sites to visit, or can you find any relevant online images or news stories?
- Iron Age people started growing crops such as spelt wheat, barley, rye and oats. Can you find these foods in your local shops? Can you find out where these crops are grown now? List your findings in a table.
- Make a photo montage of prehistoric monuments. You can search for the best images online and download them to a PowerPoint slide or Word document.
- Make a 3-D model of a Bronze Age settlement, making sure it is historically accurate.
- Make a list of all the skills a historian might need to do their job. Can you write a letter of application for the post of historian at your local museum? Make sure you outline all the skills you have and give examples of how you have used them in this project.
- Find out about the indigenous people of North Sentinel Island in Asia. How does their lifestyle compare to that of prehistoric humans? Make an information collage about this interesting tribe.
